Dyecure 60 Dye Fixing Agent

Product description

Dyecure 60, is a concentrated fixing agent for improving the washing fastness of direct dyes & reactive dyes.

The product can be applied in the exhausted dye bath or padding in after finishing.

Product Properties

1. Appearance: Clear Liquid
2. pH value: Acidic
3. Ionic nature: Cationic
4. Composition: Cationic Condensation Resin
5. Compatibility: Compatible with other cationic and non-ionic products
6. Solubility: Dissoluble with water with adequate agitation
7. Application: Exhaustion method
8. Batch Time: 20 minutes at 50°C in pH 4 - 5
9. Remove goods without rinse.
10. Dosage: 0.5 - 0.2 % Dyecure 60

Padding method

15-25 gms of Dyecure 60 per kg of fabrics in pH 5 - 6 (following with high temperature curing)

Product Safety

The product is non-hazardous, and for industry use only

Storage:

The product should be kept in tightly closed container, and protected from frost.
The storage temperature is between 4 - 35°C. The product should be used within 12 months.

Packaging:

Dyecure 60, is packed at minimum 50kg/drum

URS is a member of Registrar of Standards (Holdings) Ltd.
